Check out the CONTEST RULES!

Even if your school is more than a hop, skip and jump away from the Alberta Legislature, ACCESS Television can help your students live the experience. Our week-long, teacher-driven program gives you and your students a real-world view of the institution of parliament and the people behind today's headlines. You provide the lesson, plans and we provide a setting for students to experience government, legislation and citizenship.

During your week stay you can expect:

- A fully equipped classroom (includes Internet access)
- Contacts for interviews with Legislative Assembly staff
- An opportunity for your class to observe the Assembly in action (if in session)
- An extensive guided tour of the Legislature Building
- Curriculum-based activities and educational material
