Comments: *	I am a volunteer. I am a board member and/committee member with various non-profit groups: Seniors English and French, Schools English and French, and Retirees. As volunteers we travel, we work sometimes full days and provide our own meal funds, we print reports, research papers, letters, presentations at our own expense. We advocate. We would like to lobby too at times. Companies have the finances to hire people specifically for lobbying or send paid employees to lobby. The majority of non-profit cannot. We need to be heard also. We deal with citizens that need out support and need our advocacy and have the right to be heard.
