This will allow the Alberta government to make public the business's and countries wishing to influence Albertan's homeland. This will also enable the government to research the source and motive's of the lobbyist. Union's should not be allowed to fund any form of government backing, or lobbying. They are not a company, and they do not represent all of the people in the union. Union funds must be sourced from the workers and the workers must be allowed to allocate where, what and who they wish to support. Eg. (if 60%of union workers support UCP or liberal candidates rather than NDP, than 60%% of the Unions finding must go towards the other party's.</p>
