PART B: COMMENTS	
Comments *	<p>Using recent changes to Alberta Condominium Property Act and Regulation as a perfect example, it has become quite clear that the Government prioritized interests of those stand to profit vs. that of the general public. The government was greatly influenced by one major lobby group that is solely in the business of profiting from condo owners. Money is the biggest influencer and time to put a stop to that. I am in the process of putting together a publication pertaining to the Alberta Condominium Industry which will outline specifics that will back up what I am stating here as I plan to go public nationally. Intention is to showcase the Government's embarrassing role in disregarding the voices of those that simply wanted protection as homeowners and consumers. This is just one example of many where Alberta Government has failed in protecting public interest for decades.</p>
