I consider it extremely unethical for high-ranking party officials to be able to profit off of lobbying members of their own party sitting in the Legislature. It should be a conflict of interest for MLAs to be lobbied by senior party officials belonging to their own party. Additionally, I noticed the same of a son of an MLA listed as a lobbyist. People should not be able to lobby if they have direct family members sitting as MLAs, I also consider this extremely unethical.</p>
