PART B: COMMENTS	
Comments *	<p>I feel corporate lobbyists already have too much influence. I feel the scope of "conflict of interest" needs to be broadened regarding politicians and alliances with private enterprises including family members (ex. Shandro). I feel government funded advocate groups need to be supported for affordable and sustainable options to consumers that corporate lobbyists try to regulate or exclude. Board members of the advocacy groups should not be government employees or industry lobbyists. Ex. Ab Ag cut free supports and research for farmers that didn't rely on chemical fertilizer and herbicides for food production. Grassroots non profits become inundated with corporate lobbyists and gov employees and become hijacked. Lobbyists spread misinformation to sway the public and don't explain entire consequences. Use of AI needs to be regulated and severely restricted for lobbyists psychological warfare and propaganda techniques needs to be; clearly defined, prohibited and met with severe consequences</p>
