Phone *	██████████
City/Town *	Lethbridge
PART B: COMMENTS	
Comments *	<p>All lobbyists should have to register to a public list ,that shows what they are lobbying for and who they are working for. Any list should be posted on a govt website . If a lobbyist visits a politician or any member of his/her staff or family member the conversation should be taped and reviewed by a third party .At no time should money or gifts change hands to the member or staff or family .Every time a member or their staff meet with a lobbyist his or her constituents should be notified of who it is and why they are meeting . Any politician /staff /family that leaves the govt should have to report any gifts/money that they receive from a lobbyist after they leave office .This will end the corruption that many politicians benefit from eg: opening a consulting company to receive promised bribes while they were in office .</p>
