| PART B: COMMENTS | |
| Comments * | Lobbying should not be a part of governing. It just makes paid for politicians with whomever comes up with the biggest bribe. We the people hire you to work for us, not for the big companies. Our dollars pay your wages to do what is best for each constituency. The job of our voted in legislators is to see to the needs of his and her constituency, whose wages we also pay for. This would also include the needs of the companies and businesses within their riding. If lobbyists are running the show then what do we need MLAs for. |
