PART B: COMMENTS	
Comments *	<p>To the Members of the Assembly reviewing this piece of Legislation. Please consider how the voice of one highly paid individual holds more sway than the voices of thousands. The current government continually says they are interested in the voices of Albertans. Well thousands of Albertans have voiced their opposition to Coal Mining on the Eastern Slopes. If the past year has taught us nothing else. Our water is precious. The Oldman, Bow and no doubt Saskatchewan Rivers are at historic lows. We experienced the hottest summer and currently a dryer winter. The Eastern Slopes are the WATERSHED of southern Alberta and Saskatchewan. There are millions who will be impacted by lower water levels. The entire agricultural sector of southern Alberta/Saskatchewan is at stake. Yet the Lobbyists continue to sway current government decisions with talk about economic gains for a small minority. If the Lobbyist act is responsible it must reflect the will of a majority not a minority.</p>
