To Whom It May Concern,

I am writing to voice my agreement with proposed amendments to Bill 203. I believe that the amendment would help protect consumers while promoting transparency and clarity between customers and businesses, thereby encouraging consumers to place greater trust in those conducting repairs and maintenance on motor vehicles. I feel that protecting consumers will not only benefit the consumer and business in the short term but could also result in a safer driving environment for the people of Alberta due to more people seeking repairs and maintenance for their vehicles, knowing that they will not incur unexpected costs. Thank you for your time.

Sincerely,

Jayne Gallays
