I think the bill may help people out when it comes down to repairs that are more costly than a basic Maintenance. I would suggest that maybe have a way to well a way so as not to increase the cost of business when taking a vehicle in for repair. As the way the bill reads, any additional costs will be spread amongst everyone thru the different repair facilities. I get it the government wants to protect its citizens, but at what cost to the citizens. If I know the estimate is not going to "cost me", in a round about way it will cost. Should you look at the comments on fb there are a number of people who are not in favor of this bill. So I would also consider those comments as well. Great to take the unscrupulous repair facility out of business, but not the good ones. Does this make sense?
