Dear Committee Members,

I am writing you today in regard to Bill 203. We believe that the bill as presented will cause more harm than good in your attempt to provide more consumer protection in the market place .

The Bill as written could lead to serious and unintended consequences that could lead to misinterpretation, unnecessary administration costs and possible economic impacts on both automotive service providers and their parts suppliers.

We support the Canadian Independent Automotive Association (CIAA Alberta Chapter) and the Automotive Industries Association of Canada's position on this bill and hope that you will consider our concerns and work with them to provide a bill that offers strong consumer protection but is fair to our industry as well.

Thanks,

Darrell Scrivens
