Date: Saturday, February 20, 2016 8:34:45 PM

Dear Standing Committee on Families and Communities:

In your review of the Mental Health Amendment Act, 2007 , I want you to dramatically broaden the criteria for involuntary admission of persons with mental disorders to health care facilities and to dramatically increase the use of community treatment orders for persons requiring ongoing mental health services , urgently and permanently with no foot dragging.

Sincerely,

[REDACTED]
