Subject: RE: Review of the Public Sector Compensation Transparency Act

Hello,

Thank you for the opportunity to provide input as part of the review of *Public Sector Compensation Transparency Act*.

Travel Alberta has no written submission, per se. The only comment/concern that we wish to flag is regarding safety and security (re: public disclosure of compensation) given the regular travel to international locations to deliver our programs and mandate and given our status as government employees and, in turn, a possible prime target based on position level.

With respect to process, timing and frequency of disclosure we have no concerns currently.

Regards,

Robin Farr
