### Abused Children

How about we look into the orphans, foster & Kindship care & and see if any abuse there .

I believe that you should get an action committee and Audit this people/staff and the system .

Check & Make sure there is a real Child for every one named in the system & their location do not take this for granted .

Take pictures of the children every year . I have heard rumors of fake Children and the staff in charge send cheques to their own bank accounts . Check their bank accounts !

Have out side Doctor's and nurses ( Not the ones they use ) Check the Children for sexually abuse Perhaps there may be pregnant ones they are hiding. What could happen to their children . No Name not in the system major abuse could be happening . Check Bank accounts perhaps some are being sold .

Transparent ; every thing they legally can put on the website should be there . How many staff , How many children in the system how many went to foster care every month and keep those stats on line forever . How many where adopted ? How many hurt ? What kind of injuries ? deaths and out come . How investigation works .

Any of the Foster care givers and or staff had a name change ?? Have out side police check that .

Are the judges & police the same all the time in dealings with foster care children ?

Is there out side people checking the living conditions and kitchen ? Audit .

Perhaps the head person should be replaced every 3 to 4 years as Boards are ?

Let us , we the people know publicly what you are doing and what is the out come of your actions on these issues . Hopefully also on the website .

Perhaps a phone number besides the police so any one who wants to report abuse can . Have this committee contact the police ? Get that information out there big time .

Thank You for letting the public in on these very important Issues I am sure it will give you more of the true events that are really happening .
