Thank you for allowing the public opinion on this matter:

I personally feel that lobbyists do not convey the public's opinion and many are paid off to do what they do for big corporations. I think all lobbyists should be banned from government and that the government allows public opinion by asking the public just as you have with this opinion. We all want our voices heard and this is the best way for government to really understand what the public wants. I hear so many people talking about what they want from government but there is no way to convey that to them. Lobbyists some anyway are trying to do good but i believe that many are corrupt this causes our opinion to be clouded by what seems to be someone speaking on behalf of the public with out actually asking the public.

So please ban them and start asking the real citizens what we want to see happen. I wish that Justin Trudeau would have done that in many of his decisions, because the public would have said something completely different. It is time government started being for the people not against them.

I am really happy to see this kind of interaction by asking us what we really want to see. So Thank You!
