Hello,

I'd just like to say that as a physician I would strongly urge you to disregard [the position of the Alberta Medical Association](#) and expand the amount of data made public about physician salaries. I do not believe the public is too stupid to understand that physicians pay overhead, nor do I believe that what physicians bill the public purse is a private matter. Even if it was, most billings are run through professional corporations and corporations are not people and are not entitled to privacy concerning their dealings.

Paul Kirvan, MD
