

SCAVENGER

Use the map on the back to find the numbered spots. At each location, complete the task or answer the question. Explore the Legislature grounds to finish the scavenger hunt!

HUNT

1

Tyndall Stone:

Look carefully! Find a fossil hidden in the walls of the Queen Elizabeth II building.

Fossil found!

2

Plaza Biomes:

Next to the plaza are sections of trees, rocks and plants representing different types of natural environments (biomes) found in Alberta.

Can you name an Albertan biome? _____

Hint: *someone might be sitting on the names!*

3

Fancy Flags:

The Lieutenant Governor's (LG) flag is on top of the Legislature, at the front of the building. This flag tells Albertans if their royal representative is in the province or not. If it's flying, the LG is in Alberta.

Is the LG currently home ☐ or away ☐ ?

4

Faces of Education:

This monument is dedicated to the relationship between students, teachers and their community.

How many faces can you see? _____

5

Pedway Periscopes:

The periscopes peer into the underground pedway using mirrors and a little mathematics!

Peek underground and wave to anyone you see down there!

6

L'empreinte francophone:

If you look closely, there are small impressions on this monument. They are the fingerprints of 1,166 Franco-Albertan children. Touch the monument to add your own!

Fingerprint added.

7

Legislature Building:

(a) Way up at the top you'll see a tiny room called the *cupola*! Write down one thing you might see from the 360-degree windows?

(b) The front of the Legislature is decorated with sandstone wreaths. How many can you see carved into the stone?

Lois Hole Memorial Garden:

According to the late Honourable Lois Hole what is the secret for a "bountiful harvest"?

Hint: *it's the soul of gardening.*

8

9

Centennial Flame:

This flame has continuously burned since December 31, 1966, one day before which 100-year anniversary?

10

Treaty 6 Adhesion Monument:

These two larger than life figures reminds us that the treaties shall last "so long as the _____ shines, the _____ flows and the _____ grows."

Congratulations!

You've completed the Legislature grounds scavenger hunt! The Alberta Legislature Building and grounds are open for you to discover year round.

SCAVENGER HUNT

Bonus Question:

Test your ancient Greek. Do you know what demos and kratia, the two words that make up Democracy, mean?

Hint: you can learn about it by watching the 4D movie in the Visitor Centre or going on a tour of the Legislature!

Use the map to find the numbered spots. At each location, complete the task or answer the question.
Explore the Legislature grounds to finish the scavenger hunt!

FUN FACT: Tyndall stone is a type of limestone from Manitoba named after the Irish physicist John Tyndall. The fossils that you see are ancient sea critters from over 450 million years ago!

FUN FACT: the design of this monument combines the fleur-de-lis and the wild rose, uniting Franco-Albertans in a rising flame shape! Whoosh!

FUN FACT: Laurel wreaths in Beaux-Arts architecture indicate wealth and opulence!

- 10. Treaty 6 Adhesion Monument:** "So long as the SUN shines, the RIVER flows and the GRASS grows." People (demos) and power (kratia).
